

## **Information Session**

### **River Plan/South Reach and Environmental Overlay Zone Map Correction Projects**

The Collins View Neighborhood Association is hosting Bureau of Planning and Sustainability staff, who will share information about two projects relevant to SW Portland residents:

- **River Plan / South Reach** is an update to the *Willamette Greenway Plan* for the riverfront area south of downtown Portland. The newly released Discussion Draft creates a 20-year vision for this special place ... home to fish, wildlife and plants and providing connections for people to and along the river for recreation and nature. The draft plan includes regulations as well as projects to achieve the vision and covers unincorporated urban areas of Multnomah County such as the SW riverfront area. Learn more and comment on the plan: <https://www.portlandoregon.gov/bps/42548>
- The **Environmental Overlay Zone Map Correction Project** more precisely maps the location of conservation and protection overlay zones (ezones) to better align with existing rivers, streams, wetlands, flood areas, forests, steep slopes and wildlife habitat. Learn how these changes may affect individual properties: <https://www.portlandoregon.gov/bps/e-zone> A brief presentation on the project will happen at 7:00 p.m.

*Join us to learn more about these projects and how to comment on the draft plans.*

**River Plan / South Reach and Ezone Update Open House**

**WEDNESDAY, December 4, 6:30-8:30 p.m.**

**Riverdale High School Maverick Room 9727 SW Terwilliger Blvd**

**For more information call (503) 823-7700.**
