

Collins View May 2020 *SW News* article

River View Natural Area (RVNA) Trail Report: Muddy. Hiking not advised. Slippery in places. The mud hasn't deterred an electric mountain bike rider or other mountain bikers. Note: Cycling is prohibited in the natural area. Several unnatural tire tracks shown here.

Also a (homeless) camping tent in RVNA was sighted and reported. A shopping cart was left at Palatine & Brugger. The cart was called into the Cart Hotline (1-888-552-2787) and was promptly picked up. (You can also visit www.northwestcarts.com)

Active RVNA vernal pools were not sighted.

On the bright side, Trilliums are coming up gangbusters.

The April 1, 2020, CVNA Board meeting was a telephone conference meeting, in accordance with social responsibility and equity considerations. We anticipate the May 6 General meeting, including CVNA Board elections, will also be a teleconference format. The CVNA Election Slate is available at collinsview.org.
